Section 1: ESC eligibility

Please indicate which of the eligibility criteria you meet (*delete those that do not apply*)

- 1. Currently enrolled in a Masters or PhD in subject areas covered by or related to the themes of this conference or the research published by Accounting, Auditing and Accountability Journal.

AND / OR

- 2. A university lecturer who has completed a Masters or PhD degree in the last 5 years and who has commenced or is commencing research in the subject areas covered by or related to the themes of this conference or the research published by Accounting, Auditing and Accountability Journal.

AND / OR

- 3. A university lecturer who in the past three years has changed research directions to pursue the subject areas covered by or related to the themes of this conference or the research published by Accounting, Auditing and Accountability Journal.

Section 2: Current research

Your current research project is the research you intend to discuss in the small group sessions at the Colloquium. For PhD students this is most likely to be your PhD project. *Please note: A paper accepted for presentation at the APIRA 2013 Conference is not eligible for presentation during the small group sessions at the Colloquium.*

1. Please indicate your progress on your current project by placing a tick in the boxes below.

Yes No

I have chosen a broad topic or issue to research _____
(please identify your topic area)

I have completed my literature review

I have identified a specific research question

I have chosen an appropriate research method

I have collected my data

I have begun to analyse my results

2. What aspect of your research would you particularly like to discuss in your small group sessions? For example, this might be an issue you are currently grappling with in project design, or concerns about results recently obtained or analysed.

.....

.....

.....

3. **Attach** a brief summary of the current research project (maximum length **5** pages, double spaced).

- It is recommended that you structure your summary so as to provide (to the extent possible) a title, introduction, brief literature review, theory development, method, summary of results and conclusions.
